

2020-21

Group discussion:

The lecturers use the techniques of group discussion in the classroom for making the concept clear for increasing the hidden talent of students and make their learning easy. The teacher acts as a mentor and guide. Group discussion assesses the overall personality. The mentor chooses content for G.D. and makes a group of desirable students. In the discussion, the experts also share their views to make the discussion more interesting and knowledgeable. Students express their own views and the teacher modifies their thinking whenever they go astray in the discussion.

Talent Hunt Programmers

Students can choose any one area based on their interest and talent, and progress it to become worth appreciating. The main aim of conducting these activities is to identify and nurture the talents from a young age to boost self-confidence in their skills which will be translated into studies to gain parallel academic excellence. To serve this purpose our college celebrates talent hunt programs every year. Students prepare different items according to their talents like dance, singing, poem recitation, play drama, or skit on various issues to give a social message to society. Teachers act as a mentor and observe them. It becomes a competition, the winners are given prizes and others are applauded.
